As a celebrity psychic medium, I have been seeing the souls of the departed and predicting the future my entire life. As a young child, I thought that everyone was surrounded by and could see spirit people. It wasn't until the age of seven when I predicted my father's sudden passing, did I come to realize that not everyone has my ability. After accepting this rare gift, I realized that my purpose in this world is much larger than myself. My place here is to help others receive the healing, closure and peace they deserve. On a mission to do just that, I made the decision to leave the hustle and bustle of the business world to pursue my mediumship full-time.

Nearly two decades later, I can humbly say that I have worked with some of the world's most A-list celebrities including Deux Moi, Leah Remini, Margaret Josephs, entrepreneurs, and media who featured me as one of the most accurate psychics with over 98% accuracy per reading (average psychics being only 50%). My clients are consistently astonished by my keen ability to channel jaw-dropping details, including names, numbers, dates, and times to one's life in the present, past, or future that no one else would ever even know.

I use my psychic abilities as a way to guide my clients to make wiser personal, professional, and financial decisions. I provide them with closure from the past that has been holding them back so they can move forward with more ease in the future. It brings me genuine joy to witness a weight lifted off their shoulders when we channel a loved one on the other side or bring some sense of hope while they're struggling with a difficult or confusing situation in their current life.

As you may have seen, I've been featured on major broadcast networks, from TLC to Discovery, Lifetime, The CW, FYI, Travel Channel, and A&E to bring healing and answers to audiences around the world. Additionally, I have my own TV show, The Karyn Reece Show, on WBBZ-TV, and podcast, On Air With Karyn Reece, which you can subscribe to on Apple Podcasts, Spotify, iHeart Media, and many other streaming platforms. As a social media influencer, I partner with brands that make sense, parallel my lifestyle, and ultimately lead to sales and brand awareness. As the conduit of information between Earth and spirits on the other side, I have learned how precious life truly is. Whether it's a client reading, media appearance, or social media post, I want my audience to find their purpose and place within this world the way I have found mine.
